California Proposition 65 Declaration

Dear Valued Customers,

April 28, 2026

This letter is to inform North Star BlueScope Steel's customers that the steel produced by North Star BlueScope Steel LLC does contain chemicals which are listed in California's Safe Drinking Water & Toxic Enforcement Act of 1986. After reviewing the list and our recent analytical tests, the specific chemicals Lead, Chromium, Cadmium, Arsenic, Antimony (oxide), Nickel and Cobalt do not exceed the allowable limits.

The Act is commonly known as Proposition 65 (Prop 65), and identifies a list of chemicals which the state of California has determined to present a risk of cancer, birth defects or other reproductive harm.

North Star BlueScope Steel LLC will continue to monitor the Prop 65 regulations for any new chemicals. A list of the chemicals can be found here:
