North Star BlueScope Steel LLC TSCA Certification

US Toxic Substances Control Act (TSCA) Declaration

To whom it may concern:

North Star BlueScope Steel LLC (NSBSL) declares that none of the TSCA PBT chemicals found on the TSCA Title 1, Section 6(h) (listed below) are utilized or intentionally added to the manufacturing process.

TSCA Background

The Toxic Substance Control Act (TSCA) was amended in 2016 by the Frank R Lautenberg Chemical Safety for the 21st Century Act. The amendment requires EPA to take action on specific PBT chemicals to address risk and reduce exposures to the extent practicable. 5 PBT chemicals were identified under the 2016 Act:

- Decabromodiphenyl ether (DecaBDE)
- Phenol, isopropylated phosphate (3:1) (PIP (3:1))
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBd)
- Pentachlorothiophenol (PCTP)

Other TSCA Section 6 regulated chemicals of concern identified prior to and after the 2016 TSCA amendment include the following:

- Asbestos
- Lead
- Polychlorinated biphenyls
- Dioxins
- Chlorofluorocarbons
- Metallic Mercury
- Formaldehyde
- Nitrosating Agents
- Hex Chrom compounds in water treatment
- Methylene Chloride
